DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 3 is rejected under 35 U.S.C. 102(b) as being anticipated by Reynolds et al. (US 5,343,564). Reynolds et al. discloses a coverall including an upper section configured to enclose the upper torso and arms and a lower section that is configured to enclose the lower torso and legs as shown in figure 1. Further, the upper and lower sections are fabricated from a breathable and flexible low stretch fabric, col. 2, lines 31-63.

Allowable Subject Matter

3. Claims 1 and its respective dependents are allowable since the prior art does not teach or suggest the recitation therein including a coverall having upper and lower sections with an undergarment defining an inner tight fitting sleeve forming a pressure chamber between a loose outer sheath that introduces pressurized fluid by a conduit means through an opening of the coverall.
